

HOMES FOR CHANGING TIMES

Staying indoors has made us value our homes more than ever. Especially our kitchens which remain the beating heart of the home. As a new way of living is thrust upon us, we have been reimagining how our rooms could better suite us as individuals and families. During this time at home we have become weekend bakers, aspiring chefs, dine-in pros, home workers, teachers, crafters. Most importantly we have become stronger as families and we have now been given the opportunity to cook and dine together.

The future of kitchen and cabinetry design will inevitably change and become more multifunctional going forward, better use of the space we have, and a growing necessity for more storage for dry goods, refrigerated and frozen food. Hygiene too, will play an important consideration in the design process, so larger easy clean worksurfaces will now be a must. Every room will need to become more versatile adapting to the need for a quiet workspace during the day whilst acting as beautiful backdrop for our zoom calls, to evening home learning for our little ones while preparing a family dinner.

These changing trends will call for more creative and bespoke cabinetry that will make the most of your space. Perfectly Bespoke, is exactly that, cabinetry designed and built entirely from

scratch. We are all individual and have different needs, visions, and opinions of the world, so why shouldn't our homes be individual to? What works for the Jones's next door won't necessarily work for you. Using a truly bespoke, made to measure company to design your kitchen and custom cabinetry throughout your home, would seem like a great idea.

Find a company who really listens to how you live, work, and play in your home. A company who is not bound by pre-made specifications, and can maximise every millimetre to its fullest potential. Cabinetry can be and should be for life. By choosing hand painted furniture, when your tastes change or you just need to refresh your home, all it will take is a fresh coat of paint and new handles to create a completely different stunning look which is truly timeless.

Turner and Foye treat everyone as unique and start every project getting to know you. From the moment you walk into their showroom, right through to final fitting and beyond, they are with you every step of the way. ■
